“My Experience in Taking Back Ground” from a TBG Graduate

Taking Back Ground was a great experience for me. I grew in my relationship with the Lord and as a person. I came to understand more fully how my childhood and past experiences had influenced my struggles with same-sex attraction. I learned effective ways to cope with the temptations and struggles in my thought life. I found a group of people who accepted me unconditionally. These people helped me to change thoughts, attitudes, and actions. I am a happier and more peaceful person. I still have some difficulty, but it is different now, and I have strategies to help me handle it. Small groups were very helpful for me. I could share my heart and what was going on in my life. The leaders would listen, offer insights, and pray with me.

When I considered doing Taking Back Ground, I probably had the hesitations that most people would have. Do I really want to do this? This is pretty personal stuff. I'm not so sure I want to start talking about these issues with strangers. The people will not be strangers for long! I highly recommend this program. It has made a big difference in my life.
